

CORIO CD-1201F Refrigerated / heating circulator

Refrigerated / heating circulators of the CORIO CD series distinguish themselves with a great price-to-performance ratio. Durable and dependable, they are suitable for a wide range of standard and routine work in both laboratories and industrial environments.

The CORIO CD-1201F refrigerated circulator is exceptionally versatile with a bath opening of 35 x 41 cm (width x depth) and a bath depth of 30 cm. The resulting bath volume of 50 liters makes it possible to control the temperature of large objects, or many smaller objects, directly in the bath.

This cooling machine uses natural, environmentally-friendly refrigerant and was developed with a focus on energy efficiency. This means significant savings of up to 70% with respect to the operating costs for numerous applications, which also means faster amortization of the procurement cost. At the same time, the lower energy consumption positively contributes to climate protection.

Product features

- Models for internal and external applications
- Bright, white, easy to read display
- Very quiet
- USB connection
- Integrated pump connection M16×1
- easy switching between internal and external circulation
- Bath lid and drain tap included
- removable ventilation grid
- Refrigeration unit without side vents
- Class III (FL) according to DIN 12876-1
- Space-saving cooling coil design yields more usable space in the bath tank

Pump capacity

Medium: Water

Performance values

230V/50Hz (Schuko Plug - CEE 7/4 Plug Type F)

Heating capacity kW	2
Viscosity max. cSt	50
Pump capacity flow pressure l/min	15
Pump capacity pressure bar	0.35
Power consumption A	11

Order number including voltage version	9012718.N1.03						
Cooling capacity (Ethanol)							
°C	20	10	0	-10	-20	-30	-40
kW ¹	1.25	1.2	1.1	0.85	0.54	0.3	0.05
Refrigerant stage 1							
Refrigerant	R1270						
Filling weight g	90						
Global Warming Potential for R1270	2						
Carbon dioxide equivalent t	0.00018						

¹ Performance specifications measured in accordance with DIN 12876. Cooling capacities up to 20 °C measured with ethanol; over 20 °C with thermal oil unless otherwise specified. Performance specifications apply at an ambient temperature of 20 °C. Performance values may differ with other bath fluids.

Setting the resolution of the temperature display °C	0.1	2 Barbed fittings for tubing 8 and 12 mm ID. (Pump connections M16x1 male)	
Working temperature range °C	-40 ... +100		
Temperature stability °C	±0.03		
Ambient temperature °C	+5 ... +40		
Temperature display resolution °C	0.01 ... 0.1		

All Benefits

Brilliant.
Very bright display makes it easy to read even from a distance.

Switch on. And off you go.
Intelligent operating concept. Ready for operation with just a few quick and easy steps.

Timer. Integrated.
CORIO circulators include an integrated timer function. When the set time has elapsed, a signal sounds and the device switches off. Setting range: 0 ... 999 minutes.

Everything at the front.
All operating controls and safety functions are accessed easily and comfortably from the front.

Exact.
You can rely on it. PID1 control and 'Active Cooling Control' make the new CORIO precise and perfect.

Locked in.
The lockable power plug guarantees safe connection. More process safety.

Connection. Easy.
Inclined pump connections (M16x1) facilitate the connection of applications. Each unit includes 2 barbed fittings of 8/12 mm diameter each.

Early warning system for low liquid level
Maximum safety for applications, optical and audible alarm, allows user to refill bath fluid before the unit shuts down

Connectivity.
Remote control made easy. CORIO CD circulators feature a USB connection.
