

**Glass door**  
Allows observation of measured equipment without opening the door.

**Cable pass-through**  
The cable pass-through in the right side wall (7 cm diameter) allows easy connection to devices.

# LABO 720 CHROMAT

## PRO-ACTIVE

according to DIN 13277

### ■ PRO-ACTIVE- Control:

Permanent, proactive monitoring of the performance data and alerts in the case of deviations – so that you can take countermeasures in good time before a fault threatens your chilled goods; world's most accurate temperature control in refrigerated areas thanks to two standard PT-1000 sensors.

- **External housing** made from galvanised sheet steel (rust-proof), with white, anti-scratch powder coating. Length of the plug cable: approx. 3 m.
- **Equipped with castors.**
- **Interior** made from smooth aluminium with colourless protective coating. Gibs (every 15 mm) for flexible interior arrangement.
- **Interior consists** of five plastic-coated shelves on overlays.
- **Extra-thick 70 mm energy saving insulation**, made from high-quality, compression-moulded and environmentally friendly material.
- **Self-closing glasdoor** with easy-to-replace plastic magnetic seal frame, lockable.
- **Door hinge** on the right-hand side (by default, see illustration), or the left-hand side, can be retrofitted.
- **Forced-air cooling**, switches off automatically when you open the door, ensures a uniform temperature and minimizes temperature deviations.
- **LED-Illumination** mounted on side wall. Permanent lighting can be switched-on over a button at the control panel.

- **3 moisture-proof sockets** mounted in the interior.
- **The cable pass-through** in the right side wall (7cm diameter) allows easy connection to devices.
- **Automatic fast defrosting** thanks to time-limited and temperature-monitored reversal of the refrigerant circuit.
- **Condensate evaporates** in stainless steel heated dish beneath the refrigerator floor.
- **Key switch** protected control panel against tampering. Membrane keyboard with digital temperature display and minimum/maximum temperature memory.
- **Power failure alarm** (visual and audible alarm), the monitoring unit remains in operation for approx. 30 hours on battery power.
- **Warning functions** with visual and audible alarm signal in the case of temperature deviations or other malfunctions. Door open alarm after 60 seconds.
- **Alarms** can be forwarded using a potential-free contact (e.g., to a mobile phone with optional GSM-Module or to a control centre).
- **Data documentation** can be read via USB interface with KIRSCH Datanet software.
- **Antifreeze** against sub-zero temperatures.
- **Ventilation-enforced refrigerating machine**, hermetically sealed, energy saving, low-noise, easy to service.
- **Low-noise compressor** reduces noise to 40 dB (corresponds to noise level I; sound perception: whisper).

## Specification

|  |  |
|--|--|
| Capacity   | 700 litres   |
| Temperature setting  | approx. +4 °C to +15 °C  |
| Voltage  | 220 – 240 V, 50/60 Hz  |
| Power consumption  | 250 watts  |
| Normal consumption   | 1.63 kWh/24 h  |
| Admissible ambient temperature                                     | from +10 °C to +38 °C  |
| Heat emission (max.)   | 553 watts  |
| Exterior dimensions (including door handle and distance from wall) | w x d x h = 77 x 98 x 195.5 cm   |
| Interior dimensions  | w x d x h = 62 x 77 x 140 cm (usable width 2 cm, usable depth 11 cm, usable height 13 cm less) |
| Exterior dimensions with door open at 90°                          | w x d = 77 x 165 cm  |
| Shelf size   | w x d = 59 x 65 cm   |
| Max. load shelf  | 40 kg  |
| Weight   | Net weight 146 kg, gross weight 174 kg   |

## Optional equipment

- **Water-cooled refrigerating machine.**
- **Adjustable feet** to compensate uneven floors.
- **Housing made of stainless steel 4301**, longitudinal brushed.
- **Aluminium-drawer on roller runners**  
w x d x h = 56 x 60 x 10 cm (a maximum of eight drawers is possible).
- **Additional length and cross dividers** (for drawer).
- **Stainless steel drawer** (liquid tight)  
w x d x h = 56 x 60 x 10 cm (a maximum of eight drawers is possible).
- **Additional shelf** on rails or overlays.
- **Basket** on rails, w x d x h = 60 x 65 x 10 cm.
- **Aluminium tray**, w x d x h = 60 x 65 x 2.5 cm, with rails.
- **Vario Support**, Storage Shelf on roller runners.
- **Condensate container** can be emptied manually if no condensation is required (e.g., in an operating theatre).
- **GSM-Module** for alarm text message transmission.
- **Temperature documentation.**
  - PC-KIT-NET (network capable version)
  - 4-pin PT 100 or PT 1000 temperature sensor, class 1/3 B, including built-in reference body (measurement bottle or refrigerating block).
  - Mechanical pen-recording thermometer with two waxed paper strips.
