

close-it control seal | essential for sampling

- ▶ close-it – standard size 95 x 95 mm
- ▶ close-it Maxi - 150 x 150 mm, for larger holes or longer tears in containers
- ▶ The labels are supplied in handy rolls
- ▶ The cross perforations allow each label to be separated from the roll individually

close-it control seal | essential for sampling

Taking samples from sacks, boxes, bags, etc. with sampling lances is a common and time-proven practice. This produces holes through which easily flowing bulk goods could escape from the container. With the close-it seal, this can be prevented in an uncomplicated manner.

close-it has been especially developed for this purpose. The label has a sandwich-type structure (aluminium/ paper) and seals the container hermetically (vapour barrier). This virtually prevents hygroscopic powders from clumping together. The label is not just used to provide a hermetic seal. It is also used for providing quality control information (sampling date, release yes/no, name of tester, etc.).

The labels are available in different colours. With printing in red, blue, green, yellow, black, neutral, without printing in white.

close-it can be written on with ball-point pen, pencil or felt-tip marker.

The rear of the label is coated with a powerful adhesive. This means that close-it sticks firmly to most commercial containers, even to surfaces coated with fine powder, slightly moist or even frozen surfaces where conventional labels or adhesive tape will not stick.

Control seal close-it 95x95

Colour	Model	W x H mm	Pieces per roll	Item no.
red	printed	95 x 95	500	5303-0012 N4
yellow	printed	95 x 95	500	5303-0014 N4
