

# The economic electric pipetting solution

**WITOPED eco** is an economically priced electrical pipette aid, suitable for all pipettes up to 100 ml.

## Nosepiece

The nosepiece is suitable for all kinds of pipettes. In case of contamination, the nosepiece can be easily removed in order to exchange the filter and the silicone adapter.

## Dispenser buttons

The WITOPED eco has two buttons, one for aspirating the liquid (up), one for releasing the liquid (down).

## Digital display and speed setting

The LCD display indicates battery status and set speed. The pipetting speed can be adjusted by pushing the "+/-" buttons.

## Motor

The powerful motor ensures fast and reliable pipetting.

## Pipetting aid

### Your advantage at a glance:

- suitable for all pipettes up to 100 ml
- most affordable price in its class
- digital display indicating battery status and selected speed
- efficient battery for a long runtime, low battery alert
